

starting the weave

blend of colors & textures & beads

yea - finished!

Triangle Weaving Playshop

January 14-15, 2012, 1 P.M - 5 P.M.

Jefferson Arts Center in conjunction
with the January Fiber Show

Learn to weave with a unique process that builds the weave
from two opposite corners at the same time.

- For beginners or experienced "yarn people"
- Using those colorful, glitzy, textured novelty yarns or leftovers from other projects
- A most forgiving technique, allowing changes of colors, textures, blending all kinds of adjustments into a unified whole. And it always turns out great!
- Choose scarf or shawl size.

Monticello weaver Alice Cappa offers this opportunity to create a one-of-a-kind weaving.
Join us in a fun, creative group.

Playshop fee is covered by the Jefferson Arts grant, however, you will need to provide for the frame (\$20) & your yarns. Details pending. Space is limited; deadline: January 7th. On registration, you'll receive a pre-handout describing materials and what to expect. To register, call Alice: 850-997-5505. Or sign up at front desk to receive a flyer and newsletter. See samples: <http://www.alicecappa.com/Wvs/ClassesPage.html>.
